

AAQOL avtal för auktoriserad användning av svensk översättning i svensk sjukvård

mån 2023-02-06 15:30

Jane Beck <jane@thebrodgroup.net>

Meryl Brod <mbrod@thebrodgroup.net>

Dear Cecilia,

Please find attached the Swedish version of the AAQOL with scoring instructions. Dr. Brod authorizes use of the measure only in your clinical practice. Please do not distribute or use the measure in sponsored research without establishing an arrangement with Dr. Brod for such use.

Kind regards,

Jane

Subject: The Swedish AaQoL in tax-funded health care

Dear professor Meryl Brod,

I write to you and attach Dr Lisa Thorell because I think that Lisa has been involved in the Swedish version of the AaQoL.

Let me first introduce myself. I am director for SibeR; the National Swedish Treatment Registry for internet-delivered psychological treatments (ICBT).

In the last years some ICBT-programs for treating ADHD has been developed and we want to ensure proper use and evaluation of these programs in regular care. We have found that the AaQoL would be the most suitable scale to use to evaluate if the programs are helpful. I want to ask you if the Swedish version of the AaQoL is free to use in clinical practice in tax-paid health care?

Please, write back to me if you have questions and can give an answer to my request.

Yours sincerely, Cecilia

Cecilia Svanborg
